

Active ultrasonic sound system, produce random broadcast of 36 sound patterns in a Variable intensity, controlled and monitored by a smart CPU

Equipped with 4 high quality sound speaker

Equipped with indication lights in the front of the unit

Generates 3 way ultrasonic acoustic beam in efficient range of 10 meters.

Equipped with din rail mount for easy installation in standard fuse box and electrical cabinets.

Fuse Box Rat Protection main features:

- Produces an ultrasonic sound beam, which is effective for a 10 meter range with a 180° sound beam.
- Four way built-in speakers with high sound quality of 24 bit.
- Randomly frequency changes in range of 21-35 kHz controlled by a smart CPU.
- sound patterns, changing randomly in accordance to 14 sound reverberations and the activation mode of the unit
- Audio output power of 30-71db.
- Built to work under harsh conditions.
- Designed to work mainly in small spaces such as fuse box and electronic cabinet.
- Two indication led lights in the front of the device, indicate the sound output pulses.
- rodent free area 100%.

Order info

FUSE BOX - Rat Control	Ultrasonic rat control speaker
------------------------	--------------------------------

Product accessories

Din rail mounting spring

Suitable for installation in areas such as:

Provides rodent-proof for communication rooms, control rooms, cables and high voltage transformers, antennas, food factories, dairy plants, production halls, remote control units and so on.

Rat Shield
Fuse box Electronic Rat Control

Ultrasonic fuse box rodent protection

Product details

Physical dimension	59*107*105 mm
Weight	300 gr
Color	Black
Mounting	Din rail
Material	Aluminium / Plastic

Acoustic performance:

24 bit audio, 16 - 55 kHz pulse frequency response

Electrical info:

Power supply	230 VAC 50 HZ, 45 VA
Power consumption	22w/12v (max 5 W)
Supply voltage	9v /0.2mAh
Operating Temperature	range - 5°C + 60°C

Magnor Electronic Pest Control manufactures, installs and develops ultrasonic pest control systems against rodents, rats and mice for 15 years. Mainly used as a rodent protection in data centers, communication centers, electricity rooms and in telecommunication industry

Magnor Electronic Pest Control has a vast knowledge & experience in designing and planning of electronic pest control systems who proved effectiveness for the last 15 years

Homeland security office constructor number: 11006069

ISO: 486949001

Fuse Box- rat protection

Magnor's Fuse Box- rat protection is a unique revolutionary system for rats and mice control, preventing the damages caused by rodents such as mice and rats.

Rodents, such as rats and mice have a wide hearing range that includes high ultrasonic frequencies. The system creates a hostile zone, forcing them to escape from it.

Magnor's Rat Control is a professional tool for preventing damages caused by rats and mice and is effective in solving rodent problems in general.

company profile

Magnor Electronic Pest Control Ltd. is Israel's leading manufacturer, supplier and installer of pest control systems. We specialize in urban pest control solutions, such as bats mice and pigeons that are both humane and effective. Operating since 2001, Magnor Electronic Pest Control Ltd has led the way with innovative ideas, technologies and designs with the intention of changing the perspective on pest control by introducing a new approach, and offering new green methods of pest control products, which are harmless and scaring the pests away.

Magnor Electronic Pest Control Ltd. is the first Israeli company to work in the field of electronic pest control. We cooperate with governmental and civil institutions such as: military industries, food industries, telecommunications, computer industries, electrical infrastructure and the private sector.

Magnor Electronic Pest Control Ltd is not only a manufacturer of pest control systems but also have extensive field experience in successfully installing pest control systems with great success from satisfied customers.

Our web site provides a wealth of information & regarding new technologies, designs ideas to solve your pest problem humanly & effectively.
